GAENARI

Since 1977

“Walls that Breathe Artistry”

For us, a wall is more than a boundary—it is a canvas of identity. This collection embodies our vision: to bring depth, luxury, and poetry into everyday living. Through textures that speak, details that gleam, and patterns that bloom, we invite you to encounter walls as works of art.

We believe design is not about surface beauty alone, but about resonance—how a space feels, how it reflects who you are. The textured plaster recalls authenticity and grounding; the marble with golden veins celebrates timeless elegance; and the floral patterns whisper the gentleness of nature. Together, they mirror our brand’s pursuit: to craft walls that harmonize artistry with life itself.

GAENARI since 1977

Gaenari Wallpaper will continue to strive to become a leading company in future design with differentiated and high-quality products.
Since our founding in 1977, Gaenari Wallpaper has been a leading company in comfortable housing culture through continuous business innovation, technological development, systematic human resource development and customer satisfaction.

We have strived to abide by our management philosophy of 'Touching the hearts of customers via products and services of the highest quality.' At Gaenari Wallpaper, we practice innovative design management while creating a comfortable and sophisticated living space based on the know-how of business management.

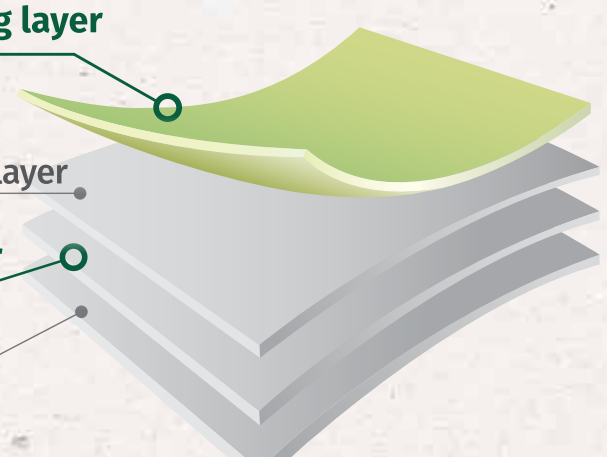
Plant-based resin (PLA) coating wallpaper derived from Natural Corn

All of GAENARI products are applied Antifungal function.

This is a safe product with no release of environmental hormones, as it uses an eco-friendly resin (PLA) derived from plant-based ingredients extracted from corn starch and is coated onto the wallpaper.

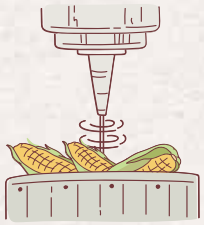
This is a functional product with an anti-mold resin layer that helps prevent mold growth.



Process to make healthy friendly GAENARI Wallpaper

Harvest the natural corn

Harvest the healthy natural corn that grow under the sun and wind of nature.

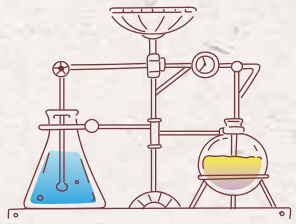


Process the Natural corn

Fine natural corn is grounded and processed to extract starch.

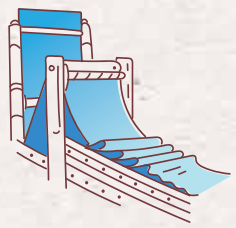
PLA resin making process

Using starch extracted from natural corn (main raw material), PLA resin is made through fermentation and condensation.



PLA water emulsion

After PLA resin goes through various processes, it's processed with an aqueous emulsion coating material suitable for the coating process.



Apply to GAENARI production

Based on PLA emulsion coating optimized for the wallpaper production process and quality, after secondary processing it's applied as a surface coating material in GAENARI production.

UL GreenGuard Certification

UL GreenGuard is a representative environmental certification system recognized by the Leadership in Energy and Environmental Design (LEED) and the United States Environmental Protection Agency (EPA). Gaenari Wallpaper has passed the UL GreenGuard's standard for 8 consecutive years in the Korean wallpaper industry.
